

Forest Charter students and families may view information regarding the California High School Proficiency Exam (CHSPE) from the California Department of Education Web page at <http://www.cde.ca.gov/ta/tg/sp/>

The online Registration Form and information regarding fees, test locations, scheduling, and understanding results are available on the CHSPE Web site at <http://www.chspe.net/> (Outside Source).

The CHSPE is a rigorous examination aligned with California's high school curriculum standards. Students may take the CHSPE if they are 16 years of age or older on the test date or have completed the first semester of grade ten. Successful test takers will earn the legal equivalent of a high school diploma. With parental permission, these students may leave school to pursue career goals or other educational options.

If you have any questions regarding this subject, please contact your Forest Charter School College and Career Advisor.
