

Retaking High School Classes Policy

Rationale

Forest Charter School wants to support students who wish to retake a class in order to improve his or her understanding of the material and/or grade point average. In order to create clarity around the process and the requirements, as well as the implications on a student's transcript, FCS has adopted the following policy:

Policy

- If a high school student retakes a class the following takes place:
 - The original class and grade stay on the transcript
 - The credits for the original grade are removed
 - The retaken class and grade are added to the transcript
 - The new grade and credits are computed in the overall GPA
- If a student has already passed a class with a D- or higher, he or she can only retake this class once
 - Any exceptions to this aspect of the policy must be approved by the High School Review Board
